

Our Research

The WRQoL scale is based on a rigorous process of development and peer review through publication in academic journals. It is this active and ongoing research base through links with academics at the University of Portsmouth that distinguishes the WRQoL tool from other surveys.

Selected publications

Edwards, J. A., Webster, S., Van Laar, D. & Easton, S. (2008). Psychometric analysis of the UK Health and Safety Executive's Management Standards work-related stress Indicator Tool, *Work & Stress*, 22:2, 96 - 107.
